

**REMARKS / ARGUMENTS**

Reconsideration of this patent application is respectfully requested in view of the foregoing amendments, and the following remarks.

In the Notice of Allowability, the Examiner canceled claim 8 and inserted its elements into claim 1, by Examiner's Amendment. By this Amendment, Applicant is amending the application back to its original state, so that claim 1 is as originally filed, and canceled claim 8 is added as new claim 12. Applicant has considered the Examiner's amendment, but believes that the application as originally filed and the claims as presented originally and in this current amendment are patentable.

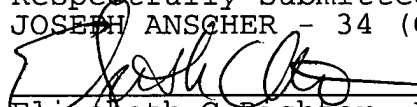

Early examination of these claims is respectfully requested.

Respectfully submitted,  
JOSEPH ANSCHER - 34 (CIP)
